

16th International Conference on Heavy Quarks and Leptons

The conference is dedicated to the study of heavy quarks, namely charm, bottom, and top, with possible extensions to interesting topics involving the strange quark. Neutrino oscillation studies as well as new insights into the muon and tau lepton sectors are also included. It continues the tradition of regular scientific meetings, first started in 1993 at the Laboratori Nazionali di Frascati under the name "Heavy Quarks at Fixed Target", and widened in 2002 to include leptons, with the workshop being renamed to its current form.

National Organizing Committee

Gagan Mohanty, TIFR Mumbai (Chair)
Md Sajjad Athar, AMU Aligarh
Seema Bahinipati, IIT Bhubaneswar
Vishal Bhardwaj, IISER Mohali
Amol Dighe, TIFR Mumbai
Sourabh Dube, IISER Pune
James Libby, IIT Madras
Namit Mahajan, PRL Ahmedabad
Kajari Mazumdar, TIFR Mumbai
Rukmani Mohanta, Univ. of Hyderabad
Md Naimuddin, Univ. of Delhi
P Poulouse, IIT Guwahati
Sourov Roy, IACS Kolkata
Saurabh Sandilya, IIT Hyderabad
Sanjay Swain, NISER Jatni
Sudhir Vempati, IISc Bangalore

International Advisory Committee

Elisabetta Barberio (Univ. of Melbourne)
Stefano Bianco (INFN Frascati)
Joel Butler (Fermilab)
Brad Cox (Univ. of Virginia)
Zdenek Dolezal (Charles Univ.)
Tim Gershon (University of Warwick)
Cristina Lazzeroni (Univ. of Birmingham)
Rupert Leitner (Charles Univ.)
Haibo Li (IHEP Beijing)
Jonathan Link (Virginia Tech)
Lucia Masetti (Univ. of Mainz)
Gagan Mohanty (TIFR Mumbai)
Mikihiko Nakao (KEK)
Tadashi Nomura (KEK)
Adam Para (Fermilab)
Stephan Paul (Technical Univ. Munich)
Leo Piilonen (Virginia Tech)
Giacchino Ranucci (INFN Milano)
Christoph Schwanda (HEPHY Vienna)
Maria Smizanska (Lancaster Univ.)
Rainer Wanke (Univ. of Mainz)

28 November-2 December 2023
TIFR, Mumbai, Maharashtra, India
