Wide Band Spectral and Timing Studies of Cosmic X-ray Sources

Friday 13 January 2017

Others-2 - AG-66 (14:00-15:30)

- Conveners: Prof. Rana, Vikram

time	title	presenter
14:00	Identification of a white dwarf pulsar and observations of a diskless intermediate polar	BUCKLEY, David
14:20	AR Scorpii as a possible seed of highly magnetized white dwarfs	MUKHOPADHYAY, Banibrata
14:40	X-ray observations of novae with Swift	PAGE, Kim
14:55	Giant pulse emission from pulsars and ASTROSAT	JOSHI, B.C.
15:10	Coordinated timing of Crab pulsar with Astrosat CZTI and radio observatories	BHATTACHARYA, D.
