# Wide Band Spectral and Timing Studies of Cosmic X-ray Sources

## Tuesday 10 January 2017

### XR3-3 - AG-66 (14:30-16:00)

- Conveners: Prof. Chattopadhyay, Indranil

time	title	presenter
14:30	A model for jet polarization and emission in blazars	MANGALAM, Arun
14:45	Dissipative accretion flow around black holes	DAS, Santabrata
15:00	Accretion Properties of Outbursting Black Hole Sources	MANDAL, Samir
15:15	Broadband nature of OBH Sources	NANDI, Anuj
15:30	Flow geometry variation of Compact objects during their outbursts	PAL, Partha Sarathi
15:45	A tilted accretion disk around a spinning black hole: an analytical solution	CHAKRABORTY, Chandrachur
