**India's Energy Options and Strategies
post Fukushima**

by Dr. Anil Kakodkar
Homi Bhabha Chair Professor, BARC, and
Member, Atomic Energy Commission

Fukushima accident has created an intense debate on safety of nuclear energy option. This calls for a diagnosis of issues involved and approaches to addressing India's additional energy needs which are the largest in the world. The presentation will deal with the options and strategies in that context

Friday, June 24, 2011 at 4 p.m.
