Homi Bhabha Road, Mumbai-400 005

October 22, 2018

ASET Colloquium

Speaker : Prof. Daksh Lohiya (*Professor Emeritus, University of Delhi*)

Title : Working with Stephen Hawking

Date & Time : Friday 09 November 2018 at 16:00 hrs.

Venue : Lecture Theater (AG-66)

Abstract :

I recount memories of my association with Stephen Hawking spanning more than four decades. I would try and describe what made Stephen so famous.

I would recount the behind the scenes action on several discoveries Stephen made: (a) As the primary irritant for Fred Hoyle's efforts on the Steady State Cosmology; (b) As the primary damper for the misdirected Soviet School of Cosmology; and finally (c) As the cause of the most intense debate on aspects of black hole radiation and information paradox.

The talk is for a general audience: Warning: There may hardly be any equations.

Dr. Satyanarayana Bheesette
(Coordinator, ASET Forum)
