[RIP U\\$D: 1971-202X ...and the Way Forward](#) was published in July 2024 and forecasts an imminent inflationary depression for the US that will last a decade or longer. The book outlines the prognosis wherein the world's monetary system would change from the current US dollar-based paper currency standard prevailing since 1971. Shan forecasts a return to Gold as the Reserve Asset before the end of this decade and at a price of gold that would be well above \$24,000/oz.
