

Mitochondria-Metabolism Network Meeting

13th-15th February 2023

About the meeting

- Presentation by leaders in the field from India and abroad
- Unique opportunity for senior students and postdocs to present their work
- Mini-workshop on techniques/technologies in mitochondrial research

Topics

- Mitochondrial biogenesis and mitophagy
- Mitochondrial fission and fusion
- Energetics and OxPhos efficiency
- Mitochondrial genome, mutations and diseases
- Nuclear-Mitochondrial cross-talk
- Metabolism and Mitochondria
- Infectious diseases, neuronal dysfunction, muscle degeneration, hepatic disorders, metabolic syndromes and aging

Organizers

Sandhya Koushika, TIFR-Mumbai

Ullas Kolthur-Seetharam, TIFR-Mumbai

Richa Rikhy, IISER-Pune

To participate register at: I will create a form and share the link
Participants will be selected based on evaluation of abstracts
